PROFILE

Computer Science Engineering student with knowledge of Python, Java, Web Development, and Data Analysis. Seeking an internship opportunity to enhance my technical skills and gain industry experience.

SKILLS

Programming Languages: C, Python, Java, JavaScript

Web Technologies: HTML, CSS, Django

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, VS Code, Streamlit

Core Concepts: Object-Oriented Programming (OOP), Data Analysis, Machine Learning, Problem Solving

PROJECTS

Customer Spend Analysis Using K-Means Clustering | Python, Streamlit, Pandas, Scikit-Learn

- Developed a responsive web application to analyze customer income and spending patterns using customer segmentation.
- Applied the K-Means Clustering algorithm to group customers and generate actionable business insights.
- Utilized Pandas and Scikit-Learn for data processing, analysis, and interactive dashboard development.

Real World Survey App | Flutter, Backend Development, Database Management

- Developed a survey management application for collecting, tracking, and managing survey responses.
- Implemented backend logic and real-time data processing to ensure efficient response management.

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science and Engineering

Velalar College of Engineering and Technology, 2024 – 2028 | CGPA: 7.21

Higher Secondary Certificate (HSC)

Kongu Kalvi Nilayam Higher Secondary School

Secondary School Leaving Certificate (SSLC)

Sengunthar Vidhyalaya Matriculation Higher Secondary School

ACHIEVEMENTS

Technical head – Mindcraftai Club, Velalar College of Engineering and Technology | 2025 - 2026

Animation Hackathon hosted by IIT Bombay – Consolation Prize for exceptional and creative project contributions

CERTIFICATIONS

Human Computer Interaction – NPTEL (IIT Delhi)

Score: 86% | Jan–Apr 2026
